

May 8, 2026

On May 2, 2026, the Connecticut General Assembly passed an adjusted budget for fiscal year (FY) 2027, which makes several changes to K-12 education funding provided by the State to public schools.¹ This budget snapshot provides a nonpartisan look at how the adjusted budget impacts state education funding over the next fiscal year and includes an analysis of how funding in the new budget compares to current education spending levels.

This snapshot also details key policy changes to K-12 education funding and includes town-by-town runs for the Education Cost Sharing (ECS) grant as well as two separate supplemental grants — the Supplemental Education Aid grant and the District Relief and Compensatory Use Learning Aid (DRACULA) grant — that provide additional state education funding to every Connecticut community.

As a reminder, the General Assembly’s adopted budget is one of the final steps in the budget development process.²

- The budget analyzed in this document is the budget passed by both chambers of the General Assembly.
- Next, the budget will be sent to Governor Ned Lamont, who will sign it into law, veto it, veto specific line items, or let it go into effect without signing.

Key Policies in Revised FY 2027 State Budget

- **Provides \$190.9 million for supplemental education funding to towns, magnet schools, charter schools, and AgriScience programs in FY 2027.** This funding is provided as one-time, supplemental funding for FY 2027 through two grants: the Supplemental Education Aid grant and the DRACULA grant.
- **Maintains funding for the Education Cost Sharing (ECS) grant and choice program grants at current levels in FY 2027.** ECS grant increases were provided to 16 towns to account for enrollment and demographic changes while all other towns will receive the same ECS grant funding in FY 2027 as they did in FY 2026. Though most school districts and school choice program operators can expect to see funding increases from supplemental education grants, this funding is not tied to changes in statutory language and is not provided through ECS or choice program grants.

¹ S.B. 1 (An Act Concerning Affordability) as amended by Senate Amendment A (LCO #5762) and further amended by S.B. 477 (An Act Concerning the Failure to File for Certain Grand List Exemptions and a Municipal Option to Abate Delinquent Property Taxes on Certain Parcels of Land) as amended by Senate Amendments A (LCO #6140) and B (LCO #6173) and then further amended by H.B. 5563 (An Act Concerning Various Criminal Law Proposals) as amended by House Amendment A (LCO #5944) and Senate Amendment A (LCO #6252).

² A more detailed explanation of Connecticut’s state budget process can be found at <https://schoolstatefinance.org/resources/connecticut-state-budget-process-office-of-fiscal-analysis>.

- **Establishes and expands several programs, including universal free breakfast and a new statewide literacy strategy.** The revised budget includes funding for universal free school breakfast, the expansion of free school lunch to students who qualify for reduced-price lunch, the expansion of a COVID-era school-based behavioral health initiative, and the creation of a statewide K-3 literacy coaching network.
- **Maintains funding for the state's largest special education grants.** The revised budget makes no changes to funding levels for the Excess Cost grant and the Special Education Expansion and Development (SEED) grant.

How would these policy changes impact students and schools?

- **The revised budget provides supplemental education funding to address the cumulative effects of inflation but only for the upcoming fiscal year.** This one-time funding supports districts in FY 2027 and potentially delays cuts to staffing, services, and programs. However, because the supplemental education funding is provided as a one-time grant, rather than through statutory changes to existing education funding formulas, school districts will continue to face rising fiscal pressures in future years.
- **Providing universal breakfast and eliminating costs for students who receive reduced-price meals will improve food security for students** while helping reduce the stigma around free school meals.
- Enhanced support in the budget for intervention initiatives, including the behavioral health pilot program and the placement of literacy coaches in some of the state's most underserved districts, **could lead to better student experiences, improved outcomes, and stronger mental health across schools.**

Supplemental Education Funding^{3,4}

The FY 2027 revised budget includes several **one-time** supplemental grants intended to help school districts, municipalities, and school choice program operators manage rising costs and reduce the burden on local taxpayers. While these grants will help provide school districts with critical funding, it is important to emphasize **this funding is temporary and not part of existing education funding formulas**. Table 1 on the following page outlines the supplemental education funding provided to each type of public school.

The budget includes two separate supplemental grants that are based off the ECS formula. The first, the **Supplemental Education Aid grant**, provides additional funding for towns and school choice operators. For towns, the grant is calculated based on the ECS formula and provides towns with the greater of: 1) the amount they would receive if the ECS foundation amount were increased to \$13,087 per student, or 2) at a minimum, a 2% increase over the town's FY 2027 ECS grant.

For school choice providers, the supplemental funding is also not an actual foundation adjustment, but appears to be calculated as if the foundation amount were increased in line with the growth permitted under the State's spending cap, which would theoretically bring the foundation to \$12,210 for these programs.⁵ It is important to note that **the foundation amount for the ECS grant, and the grants for public school choice operators, was not formally adjusted in statute** under the revised budget. Instead, the total supplemental grant simply seems to align with these calculations.

The second supplemental grant, the **District Relief and Compensatory Use of Learning Aid (DRACULA) grant**, builds on the Supplemental Education Aid grant by providing additional funding to ensure all municipalities receive at least a 4% total increase over their FY 2027 ECS grant amounts.⁶

While these grants are partly based on ECS and school choice program grant calculations, they are separate from existing grants and are largely not expected to continue in future fiscal years.⁷ Additionally, while the revised budget requires that these funds be used for educational purposes, it doesn't obligate the funding to go directly to local and regional boards of education. Instead, the supplemental education funding for local and regional boards of education will be allocated to municipalities. Municipalities will have the option to adjust previously approved FY 2027 budgets to replace increased municipal funding with the supplemental state education funding.

³ S.B. 1 (An Act Concerning Affordability) as amended by Senate Amendment A (LCO #5762) and further amended by S.B. 477 (An Act Concerning the Failure to File for Certain Grand List Exemptions and a Municipal Option to Abate Delinquent Property Taxes on Certain Parcels of Land) as amended by Senate Amendments A (LCO #6140) and B (LCO #6173) and then further amended by H.B. 5563 (An Act Concerning Various Criminal Law Proposals) as amended by House Amendment A (LCO #5944) and Senate Amendment A (LCO #6252).

⁴ For more information on supplemental grant allocations by town, please visit <https://files.schoolstatefinance.org/hubfs/Reports/FY%202027%20Supplemental%20Education%20Aid%20Town%20Runs.pdf>.

⁵ The spending cap growth rate is the greater of: (1) the percentage increase in personal income, or (2) the percentage increase in inflation.

⁶ For more information on how the DRACULA grant is calculated, please see Appendix A.

⁷ Section 392 of the budget does require a \$152.2 million increase in the appropriation for ECS in FY 2028, which would be sufficient to cover the cost of a foundation adjustment of \$13,087, but does not contain language to direct the distribution of this funding.

However, if a town adjusts its previously approved FY 2027 budget, it must provide its local or regional board of education with, at a minimum, funding equal to what the town provided in FY 2026 plus the supplemental education funding allocated to the town under the revised state budget for FY 2027.

Finally, it's important to note that for Alliance Districts, these supplemental funds won't be counted as Alliance District support. Additionally, for all municipalities, this supplemental funding will not be included in their FY 2028 Minimum Budget Requirement calculations.

Table 1: Supplemental Education Funding in the Adopted Budget

Line Item	Supplemental Education Aid Grant	District Relief & Compensatory Use Learning Aid (DRACULA) Grant	Purpose
Municipal ECS-Based Aid	\$162.2 million	\$10.95 million	<ul style="list-style-type: none"> Provides supplemental education grants to towns based on the ECS formula but <i>outside of ECS</i>. Grants are the greater of: 1) the amount towns would receive if the ECS foundation amount were increased to \$13,087 or 2) 4% of the town's FY 2027 ECS grant amount.
Regional Educational Service Center (RESC) Magnets	\$5.55 million	\$0	<ul style="list-style-type: none"> Provides supplemental funding to the magnet school line item to increase per-student grant amounts to RESC-operated magnet schools. Grant calculations match the amounts that would result from raising the foundation amount to \$12,210 per student, which is reflective of increasing the foundation by the greater of: 1) the percentage increase in personal income or 2) the percentage increase in inflation.
Board of Education (BOE) Magnets	\$2.75 million	\$0	<ul style="list-style-type: none"> Provides supplemental funding to the magnet school line item to increase per-student grant amounts to magnet schools operated by local or regional boards of education. Grant calculations match the amounts that would result from raising the foundation amount to \$12,210 per student, which is

Line Item	Supplemental Education Aid Grant	District Relief & Compensatory Use Learning Aid (DRACULA) Grant	Purpose
			reflective of increasing the foundation by the greater of: 1) the percentage increase in personal income or 2) the percentage increase in inflation.
State Charter Schools	\$8.7 million	\$0	<ul style="list-style-type: none"> Provides supplemental funding to the state charter school line item to increase grant amounts to charter school operators. Grant calculations match the amounts that would result from raising the foundation amount to \$12,210 per student, which is reflective of increasing the foundation by the greater of: 1) the percentage increase in personal income or 2) the percentage increase in inflation.
Vocational Agriculture	\$800,000	\$0	<ul style="list-style-type: none"> Provides supplemental funding to the vocational agriculture line item to increase grant amounts paid to local or regional boards of education that operate AgriScience programs. Grant calculations match the amounts that would result from raising the foundation amount to \$12,210 per student, which is reflective of increasing the foundation by the greater of: 1) the percentage increase in personal income or 2) the percentage increase in inflation.
Department of Education Oversight	\$3.0 million	\$0	<ul style="list-style-type: none"> Provides funding to Department of Education for costs related to the distribution of supplemental education grants and the implementation of oversight activities established in the revised budget.
TOTAL AID	\$183.0 million	\$10.95 million	\$193.95 million

Analysis of Selected Appropriations

Table 2 below shows appropriated funding for significant K-12 education grants under the revised FY 2027 state budget in comparison to FY 2026 estimated expenditures and original funding levels appropriated for FY 2027 as part of the state's biennial budget. The appropriations in Table 2 focus on significant and relevant grants to municipalities and school districts. State funding for school choice programs is also included in the table.⁸

State education appropriations that would increase — **compared to the appropriated amounts for FY 2027 from the biennial budget adopted last year** — are highlighted in green, while those appropriations that are estimated to experience no change are highlighted in yellow. Appropriations that would decrease compared to current FY 2027 amounts in biennial budget are highlighted in red. The far-right column of Table 2 presents the key policy details contained in the revised state budget for each grant.

Table 2: Selected State Education Funding Under Revised Budget, FY 2027⁹

Grant	FY 2026 Estimated Funding	FY 2027 Biennial Budget	FY 2027 Revised Budget	Change After Budget Revisions	Key Policy Details
Education Equalization (ECS)	\$2,456,768,109	\$2,456,935,081	\$2,456,935,081	\$0	Adopted budget makes no changes to ECS grant.
Magnet Schools	\$320,425,940	\$344,345,603	\$339,255,603	-\$5,090,000	Eliminates \$5.59 million of the supplemental \$12 million assistance in FY 2027 for RESCs and adds an additional \$500,000 for Goodwin University Magnet schools.
State Charter Schools	\$141,803,548	\$144,122,548	\$147,337,541	\$3,214,993	Adjusts funding based on updated projected enrollment and demographic information and provides an

⁸ Although the Adult Education and Development of Mastery Exams line items exceed \$10 million in appropriations, they are not included in the below table due to their relationship to public K-12 education operating expenses.

⁹ S.B. 1 (An Act Concerning Affordability) as amended by Senate Amendment A (LCO #5762) and further amended by S.B. 477 (An Act Concerning the Failure to File for Certain Grand List Exemptions and a Municipal Option to Abate Delinquent Property Taxes on Certain Parcels of Land) as amended by Senate Amendments A (LCO #6140) and B (LCO #6173) and then further amended by H.B. 5563 (An Act Concerning Various Criminal Law Proposals) as amended by House Amendment A (LCO #5944) and Senate Amendment A (LCO #6252).

Grant	FY 2026 Estimated Funding	FY 2027 Biennial Budget	FY 2027 Revised Budget	Change After Budget Revisions	Key Policy Details
					Incentives grant is reduced.
School Breakfast Program	\$2,158,900	\$2,158,900	\$14,158,900	\$12,000,000	Funding is provided to support universal free breakfast for all Connecticut students.
Curriculum and Standards	\$4,215,782	\$4,215,782	\$6,215,782	\$2,000,000	Funding is provided for a statewide literacy strategy and curriculum.
School Based Behavioral Health Grants	\$0	\$0	\$5,000,000	\$5,000,000	Expands a COVID-era behavioral health pilot program from 7 to 20 schools.

Analysis of Education Cost Sharing (ECS) Grant Funding and Supplemental Education Funding to Towns

To distribute state education aid to towns for their local or regional public school districts, Connecticut uses the ECS formula, which was adopted in 2017 as part of the state budget and first used and implemented in FY 2019.

The biennial budget for FYs 2026 and 2027 adopted last year maintained the phase-in schedule to provide full ECS grants in both years of the biennium for towns considered “underfunded” according to the ECS formula. For towns considered “overfunded,” the biennial budget maintained FY 2025 funding levels by holding these towns harmless until FY 2028.¹⁰ In the revised state budget for FY 2027, no changes are made to the phase-in schedule or phase-out schedule of the ECS formula.

As stated in previous sections of this analysis, the supplemental education funding provided to towns under the revised FY 2027 state budget exists **outside the ECS formula**.

However, the revised FY 2027 state budget does include a provision that ECS grants in FY 2028 shall not be less than the appropriation in FY 2027 plus \$152.2 million. This amount would be sufficient to provide ECS grants using the formula with an increased foundation amount of \$13,087. Further legislative action is required, however, in order for these funds to be distributed in FY 2028.

Beginning on the following page, Table 3 provides the total state education funding each town is estimated to receive for FY 2027. The table includes each town’s estimated FY 2026 ECS grant, their FY 2027 estimated ECS grant under the revised budget, their Supplemental Education Aid grant, and, if applicable, their District Relief and Compensatory Use Learning Aid Grant (DRACULA) grant. Towns projected to receive an increase in ECS funding in FY 2027 — over their FY 2026 ECS grant amount — are highlighted in green and towns projected to receive the same amount of ECS funding are highlighted in yellow.¹¹

Please note that adjustments in ECS funding levels — both at the town level and overall — in the revised budget are the result of the ECS formula annually accounting for changes in enrollment, student needs, and community wealth. The ECS funding levels in the revised budget DO NOT reflect a policy change or additional funding beyond what towns are currently entitled to under state statute.

¹⁰ Significant year-over-year shifts in enrollment, student need, and municipal wealth materially reduced the fully-funded ECS grant amounts for most Connecticut municipalities in FY 2027. These changes resulted in a majority of municipalities being considered “overfunded” by the ECS formula.

¹¹ Though municipalities will receive increased state education funding from supplemental education grants, the budget also provides municipalities that have already passed a budget for FY 2027 the opportunity to make adjustments to those budgets. As a result, districts may not receive the full appropriation as an increase to their approved FY 2027 budget.

Table 3: Estimated FY 2027 State Education Grants for Each Town Under the Revised State Budget¹²

Note: Budgeted appropriations may differ from final grant amounts made by the Connecticut State Department of Education (CSDE) to towns and school districts as final grant calculations take additional statutory provisions into account. Therefore, towns and school districts should wait for final grant amounts to be released by the CSDE before finalizing these amounts in their budgets.

Town	FY 2026 Est. ECS Grant	FY 2027 ECS Grant	Supplemental Education Aid Grant	DRACULA Grant*	Total (ECS + Supplemental + DRACULA)

**The DRACULA grant raised the minimum Supplemental Education Aid grant from 2% to 4% of each town's FY 2027 ECS funding, effectively doubling aid for most municipalities. For nine towns, however, the DRACULA grant instead reflects the difference between their aid under a \$13,087 foundation (already above 2%) and the amount needed to reach a full 4% increase over their FY 2027 ECS grant. For more information, please see Appendix A.*

Table 4 below provides the **estimated change** — in comparison to FY 2026 — in each town's state education funding grants. The table includes the changes in each town's estimated ECS grant, their Supplemental Education Aid grant, and, if applicable, their DRACULA grant. Each town's **total change in state education funding** for FY 2027 is also calculated. Towns projected to receive an increase in ECS funding in FY 2027 — over their FY 2026 ECS grant amount — are highlighted in green and towns projected to receive the same amount of ECS funding are highlighted in yellow.

Please note that adjustments in ECS funding levels — both at the town level and overall — in the revised budget are the result of the ECS formula annually accounting for changes in enrollment, student needs, and community wealth. The ECS funding levels in the revised budget DO NOT reflect a policy change or additional funding beyond what towns are currently entitled to under state statute.

**Table 4: Estimated Change in Town Education Grants for FY 2027
Under the Revised State Budget¹³**

Note: Budgeted appropriations may differ from final grant amounts made by the CSDE to towns and school districts as final grant calculations take additional statutory provisions into account. Therefore, towns and school districts should wait for final grant amounts to be released by the CSDE before finalizing these amounts in their budgets.

*The DRACULA grant raised the minimum Supplemental Education Aid grant from 2% to 4% of each town's FY 2027 ECS funding, effectively doubling aid for most municipalities. For nine towns, however, the DRACULA grant instead reflects the difference between their aid under a \$13,087 foundation (already above 2%) and the amount needed to reach a full 4% increase over their FY 2027 ECS grant. For more information, please see Appendix A.

Appendix A

The District Relief and Compensatory Use Learning Aid (DRACULA) grant builds on the Supplemental Education Aid grant by providing additional state funding to ensure all towns receive increases in state education funding for FY 2027 that are equal to at least 4% of their FY 2027 ECS grant amount. For most towns receiving the DRACULA grant, the grant is equal to their Supplemental Education Aid grant. However, this pattern does not apply to nine towns: East Haven, Easton, Enfield, Haddam, Kent, Ridgefield, Shelton, Sprague, and Stratford.

For these nine towns, when calculated using a foundation amount of \$13,087, their calculated Supplemental Education Aid grants resulted in them receiving amounts higher than their FY 2027 ECS grants and resulting increases greater than 2% of their FY 2027 ECS grant amounts. However, these increases were not large enough to equal to at least 4% of each town's FY 2027 ECS grant amount. As a result, each of these nine towns is provided a DRACULA grant that reflects the difference between 4% of their FY 2027 ECS grant and their Supplemental Education Aid grant.

For example, East Haven's calculated Supplemental Education Aid grant is \$541,052, which is equal to 2.7% of its FY 2027 ECS grant. This is \$259,186 short of what is needed to provide East Haven with supplemental education funding equal to at least 4% of its FY 2027 ECS grant. To make up this difference and ensure East Haven receives its full 4%, the revised budget appropriates the town a DRACULA grant of \$259,186.

Table 5: East Haven Example – DRACULA Grant

FY 2027 ECS Grant	4% of FY 2027 ECS Grant	Supplemental Education Aid Grant	DRACULA Grant <i>(Difference between Supplemental Education Aid Grant and 4% Increase)</i>	Total Supplemental Education Aid to East Haven
\$20,005,957	\$800,238	\$541,052	\$259,186	\$800,238
